

# Data Lake for BI Reporting

Power your business intelligence tool of choice with direct access to your ClearCompany data to augment your data sources and create the custom reports your company needs.

## A Real-Time Data Feed for Your Business Intelligence Software

Easily connect your preferred BI tool with our system or utilize Snowflake's Snowsight BI interface to quickly access your company's data. Our system syncs every 20 minutes so you have up-to-date data whenever you need it.

## Easily Build Custom Reports and Data Visualizations

Import ClearCompany HR data to gain valuable insights into how your employee dynamics impact your organization's demographics, DEIB trends, and results. Connect the dots between financial, operational, HR, and talent data.

## Access Your Data Fields from Any ClearCompany Talent Module

ClearCompany's unified platform supports the entire talent lifecycle, making it easy to access data from one common system. Understand your organization's data using Data Lake for BI Reporting from every product suite, including:

- Recruiting Data
- Candidate Data
- Offer Letter Data
- Onboarding Data
- Employee Data
- Office Data
- Performance Data

## Easy Set Up, Immediate Access

Data Lake for BI Reporting subscriptions include everything you need to get started, including Snowflake credentials, connection instructions, UML diagrams, allotted implementation hours, and a thorough data dictionary containing all data types and fields.
